EDUCATION

Sunsoft Degree College, Bidar University Bidar, Bidar ,Karnataka **2023 – 2026**
Bachelor of Computer Application *CGPA:* ***7.2***

Mathe Manikeswari pu College, Bidar , Karnataka **2021 – 2023**
Karnataka School Examination and Assessment Board : ***59.5%***

Sri Guru Tara High School, Bidar, Karnatak **2021**
Karnataka School Examination and Assessment Board *Percentage:* ***80.96%***

INTERNSHIP

Full Stack Python Developer **Sept 2026**
Tap Academy

- Mastered Python programming, including core concepts such as OOP, data structures, control flow, functions, exception handling, and file handling.
- Gained hands-on experience with Python libraries and tools, including Pygame, focusing on GUI development, game logic, and event handling.
- Applied Python skills in practical projects, including a Chess Game application, demonstrating problem-solving abilities, logical implementation, and interactive application development.

PROJECTS

Chess Game – Python Desktop Application | Python, Pygame — GitHub **2026**

- Developed a two-player chess game using Python and Pygame, featuring an interactive graphical user interface for playing chess.
- Implemented chess game logic, including piece movement, board management, and turn-based gameplay using a dedicated chess engine.
- Integrated graphical rendering and user input handling to provide an interactive gaming experience with visual chess pieces and board navigation.

Expense Tracke | Python — GitHub **2026**

- Developed a Python-based Expense Tracker application to record, manage, and organize daily expenses with date, amount, and category details.
- Implemented custom expense category management, allowing users to create and view categories for better organization of financial records.
- Built category-wise expense summary functionality to calculate and display total spending, helping users monitor and analyze their daily expenses.

TECHNICAL SKILLS

Languages: Python, SQL, MySQL
Frameworks/Technologies: Django, Flask, FastAPI, HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, REST APIs
Databases: MySQL, PostgreSQL, MongoDB
Developer Tools: Git, GitHub, VS Code, PyCharm, Postman
